FROM: IS01/Office of the Chief Information Officer

In accordance with MPR 1410.2, IS01 requests approval for deviation from MPR 1410.2, 2.4.6 and 2.7.3.

Define the proposed departure from the requirement(s):

The Directives Manager is required to issue a call for the annual review of Management Directives by November 1 with the Offices of Primary Responsibility responding by December 1 of the same year. The proposed deviation is to change the start and end dates for the 2007 annual review to March 1, 2008, and April 1, 2008, respectively.

Justification for the deviation/waiver (waivers must include references to any applicable nonconformance, discrepancy, or deficiency report(s):

A current concentrated focus is underway to assess potential impacts to all MSFC directives by the Michoud Assembly Facility (MAF) transition. Assessment, revisions, reviews, dispositions, and final approvals are expected to take several weeks. Once the MAF transition phase has been completed, full attention can be given to an annual review of Management Directives.

Applicability, impacts, and conditions (if any) of waiver:

The requested deviation applies only to the 2007 annual review.

Alternate plans to meet any ISO 9001 or AS9100 requirement(s):

None needed.
